

Atividade 2- RELATÓRIO:

Segue link para clonar código: <https://github.com/gdenes74/leiloes.git>.

Já havia feito a alteração para a versão do jdk 17, conforme orientação em vídeo e reforço em M.O. do dia 29/06/2023, com o tutor Luthiano, bem como a alteração do login e a senha, para acessar o banco de dados, então esses comandos já foram comitados e subidos anteriormente no projeto, sem eu poder mostrar no bash agora.

Será colado na tela o gitBash referente ao commit feito e enviado para o GitHub, da 1 parte da atividade 2, onde tem-se que definir a tela de cadastro, com Jdbc e usando o NetBeans. Primeiramente será feito o gitbash e posterior imagens do netbeans com a integração do banco de dados.

```
